

**THE McCLUSKEY MODEL FOR
EXPLORING THE DYNAMICS OF ATTACHMENT IN ADULT LIFE**

5 DAY RESIDENTIAL CONFERENCE

13TH ~ 17TH MAY 2019

**Exploratory Goal-Corrected Psychotherapy
(EGCP)**

This biennial Conference brings together those who have worked and trained in the McCluskey Model and those who are new to the work. It offers an opportunity to understand how the Model is being used in a variety of settings, including homelessness, mental health and organisational development to achieve success in understanding the dynamics of attachment in adults. It also provides an opportunity to explore one's own experience of attachment dynamics in the context of a confidential closed experiential group. Opportunities exist beyond the Conference to carry on learning and working using this framework.

**DROMANTINE
RETREAT &
CONFERENCE
CENTRE, NEWRY,
CO DOWN**
